

Polarized interconnect cables

The first polarized cables on the Italian market, since the mid-1990s. Completely hand-made by experienced Italian craftsmen to obtain a superb articulation of the musical event, along with tremendous dynamics and a dramatic musical setting. 'Ohr and Ashar Polar are Mel Audio's offerings for maximum performance in interconnecting your system's components.

Chevel Ashar Polar POLARIZED INTERCONNECT CABLE

Insulation:	High purity class 1 extruded teflon
Structure:	Air litz interlaced together with a set of polarizable screen by battery feeding
Wire:	Air litz enamelled and silk coated
Wire structure:	Pure unsoft copper
Terminations:	Gold plated rca connectors
Standard lengths:	0,7 - 1,0 m
Different lengths:	On request
Colour:	Black
Polarization system:	Supplied

Chevel 'Ohr Polar POLARIZED INTERCONNECT CABLE

Insulation:	High purity class 1 extruded teflon
Structure:	Coaxed multiscreen polarizable by battery feeding
Wire:	Avg in double multistrands section individually isolated and shielded
Wire structure:	Oxygen free macro copper oriented crystals
Terminations:	Gold plated rca connectors
Standard lengths:	0,7 - 1,0 m
Different lengths:	On request
Colour:	White
Polarization system:	Supplied
